This is the second assignment. My name is [yourname] and my student ID is [yourstudentid]

About this document:

1. This document uses the font size 12pt.

2. It is created to help you practice typing lists and tables.

Do you like bullet points? I don't.

• They can get **very** repetitive.

⋆ Even when I change the bullet symbol it doesn't feel special.

I'm making this last list with the **outline** environment. (This requires the **outlines** package.) Why use this environment?

• Because nesting

    – is so easy

• with this particular

    – environment.

        ∗ other ways to do nesting are much more cumbersome.

The table below is flushrighted.

| Items | Cost |
|---|---|
| loaf of bread | $3.5 |
| toothpaste | $1.79 |
| dental floss | $3.9 |

The table below is in the middle.

| upper left | center | | upper right |
|---|---|---|---|
| left | | *the middle* | right |
| | `in the middle` | | |
| lower left | ***nothing here*** | | lower right |
