Template with theme *berlin* and color *rose*.

Some helpful commands:

1. For table of contents to appear with a highlighted section use command `\tableofcontents[currentsection]` inside the frame.

2. Color Page

   To color the text, include package *xcolor* in preamble. The command is `\textcolor{color}{text}`.

   To add bullet, use command

   ```
   \begin{itemize}
   \item ...
   \end{itemize}.
   ```

3. Overlays Page

   For multiple choices, use command

   ```
   \begin{enumerate}[A]
   \item<> ...
   \end{enumerate}.
   ```

4. Figure Page

   To add figure, use command

   ```
   \begin{figure}
   \includegraphics[]{file}
   \end{figure}.
   ```

   To block messages, use command

   ```
   \begin{block}{name}
   text
   \end{block}.
   ```

   To make separated columns, use command

   ```
   \begin{columns}
   \column { 0.5\textwidth }
   \end{columns}.
   ```

5. Theorem Page

   Add `\theoremstyle{plain}` and `\newtheorem{thm}{Theorem}` on preamble.

   Use command *array* for the matrix

   ```
   \begin{array}{cc}
   text
   \end{array}.
   ```

6. Table Page

Use command *table* for table

```
\begin{table}
\begin{tabular}{|l|c|c|} \hline
text
\end{tabular}
\end{table}.
```
